POPOBARA

POP RECORDING ARTIST

Rising Swedish pop star and queer icon, Manda, dedicates her sound to encourage listeners to embrace their sexuality and feminine power. She jumped into the spotlight when she placed in the Top 7 of Swedish X Factor in 2012. She then went on to perform her original song "Glow" on the Swedish election of Eurovision in 2014. The singer/songwriter then went on to garner more success with her iTunes chart-topping electronic single "Sweetest Heartbreak." Also, as a highly successful and sought-after songwriter, she wrote and performed the song "Loved By You" produced by Lordnox which boasts over 4.5 million streams across the world.

Deriving her sound from the influences of the late 90's/2000's, her music is uplifting and hopeful, with powerhouse soulful vocals. Her latest single "her ocean", a sultry bedroom bop about lesbian love, quickly went viral on TikTok and got picked up by media outlets such as EarMilk and PopularTV after the first week of release.
