

mkx

MkX takes everything he does and cranks it to the highest maximum. The pop artist, multi-instrumentalist, and platinum producer not only writes and produces every nuance of his music, but also creates a 360 multimedia installment including hand-crafted visuals, bold fashion, and hi-tech stage effects. He has cultivated a sound all his own, combining the nostalgia of 2000s pop music with cutting edge electronic sound design. He eventually landed shows opening for the likes of Ariana Grande and other Top 40 radio artists.

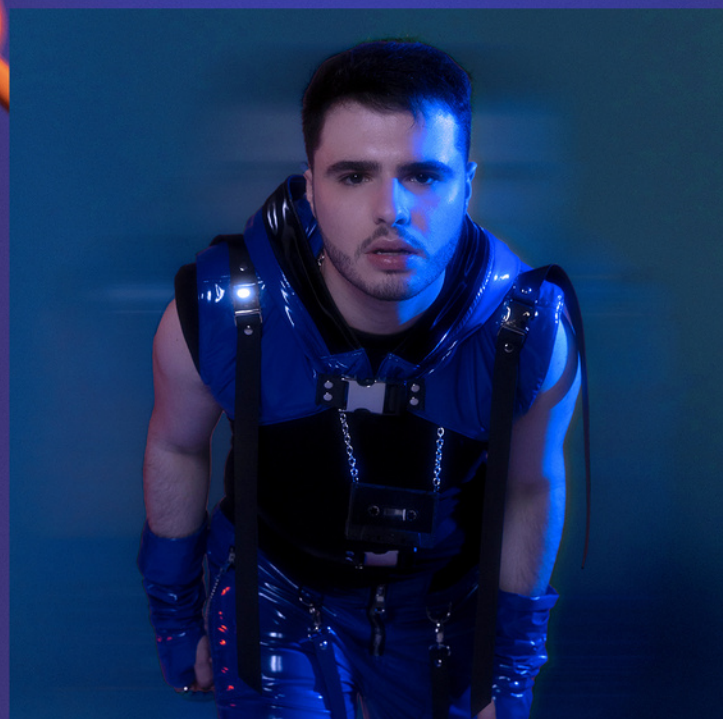

“MkX is the Futuristic Pop Star We’ve Been Looking For”

“Working with MkX was a ball. He sent the record over and I automatically knew it was a vibe. I can hear this record being played in clubs, radio, and many more lit locations. I’d definitely love to work with him again.”
